

As a consumer, I am incredibly angry that the FCC is even entertaining the idea of superceding any portion of the Wisconsin No-Call List as it is currently on our books. The OVERWHELMING MAJORITY of Wisconsinites are fed up with these types of unsolicited calls as indicated by the number of people already on our state list. I feel I share the same feelings as most of them, although you may not hear from those that don't have computer access. I consider these non-solicited calls as an invasion of my privacy and an intrusion into my home, and I do not feel that I should have to purchase caller ID to bypass them. As a Federal Agency, I remind you of the words "Government of the people, BY THE PEOPLE"...not by special interests. The people of this state have already spoken regarding this issue. Let our "No-Call" list stand as we have drafted it. Thank you.
